## Executive Summary

**15.26M**

Total Revenue

**8.01M**

Revenue Lost from Stockouts

**51.86%**

Stockout Rate

**Electronics**

Best Category

**Los Angeles, CA**

Highest Revenue Store

### BUSINESS INSIGHTS

- Electronics generated 52% of total revenue, outperforming Appliances by \$619,000
- Los Angeles was the top-performing store with \$3.3M in total revenue
- Platinum customers recorded the highest average transaction value at \$3,089 per transaction
- Stockout rate exceeded 51%, putting \$8.01M in revenue at risk due to replenishment gaps
- Percentage Discount promotions generated the highest average transaction value at \$3,01
- Bronze customers carry the highest average income at \$70,932 but remain in the lowest loyalty tier

**Platinum**

Best Customer Segment

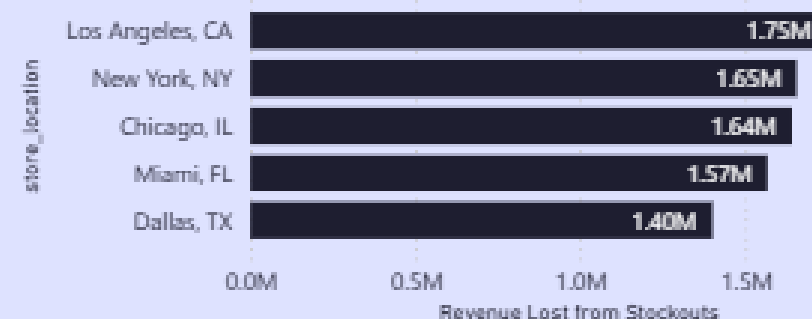

**% Discount**

Best Promo Type

### BUSINESS RECOMMENDATIONS

1. Fix replenishment execution — demand forecasting is accurate but stockouts still exceed 51%
2. Target Bronze customers for loyalty upgrades — highest income tier but lowest loyalty level
3. Prioritise Percentage Discount promotions — highest avg transaction value at \$3,228
4. Investigate June revenue dip — lowest full month at \$1.60M, root cause unknown
5. Resolve 1,794 transactions marked as promoted with no promotion type — data quality issue
